## 2023 SAUVIGNON BLANC CALIFORNIA

This wine is both delicious and Sauvignon Blanc, for us, an unusual coincidence, and this a triumph of truth over prejudice. While some may find the fruit qualities a bit softer and the palate, there's a subtle quality to the fruit that lends a certain depth and complexity, with a mouthfeel that's altogether intriguing.

A reserved style of Sauvignon Blanc, not an ostentatious style. No showing off here with overt or over-hewn aromatics; instead, there's a more textured and concentrated profile that highlights the softer notes of pear, apricot, peach juice, and stone fruits. The mouthfeel is just right, and the acid is well-balanced. Its objective is to be as satisfying as it is to delight the jaded and go well with anything white wine pairs well with. There was barely more than 100 cases produced, so, perditus qui haesitat, who hesitates is lost, and what a shame in this case, over a wine so good that if you didn't like it, you might consider therapy.
