2019 ORION CALIFORNIA NATIVE RED WINE

Orion Old Vines is a native Californian wine born from a particular field, planted in 1905 to its own particular constellation of grapes. We have worked hard to reveal, rather than tame, its individuality. It is a wine of great character, intensely aromatic, with exceptional depth of color and richness of flavor. It will age better than most of us or can be drunk with pleasure now, depending on your affection for your heirs.
